

Community Health &
Men's Promotion Summit

CHAMPS

CHAMPS is a nonprofit organization focused on addressing men's health concerns by raising awareness of early detection and disease treatment. In conjunction with numerous organizations, this annual event provides a broad range of services to adult men throughout Metro Atlanta. The initiative focuses on the importance of men owning and addressing their health and becoming more educated about overall healthier lifestyles. While CHAMPS provides screenings and health education to ALL men who participate, it specifically targets the medically underserved who are at greater risks for developing certain health disorders.

JOIN US! Bring your father, brother, son, grandfather, uncle, friends, neighbors, colleagues, church members...

It is ALL FREE!
